1.5 The User / The Audience

ODAnic has two main groups of users, the focal points (data provider) and the general public (data viewer/audience). Therefore O prc can be accessed in two ways, through two different interfaces. One is the data input or -maintenance interface, which is password protected and only used by EU Donor focal points to enter and update their data. The other is the data presentation interface, which is freely accessible for anyone through www.odadata.eu/odanic and used to view the EU Bluebook and the project lists and -reports. It is expected there will be several main users of these lists and reports including development partners (GRUN, Donors, UN agencies and other organizations and institutions) and the general public.
