Introduction:

The purpose of this full USAID 4th Quarter of 2005 disbursements extract of DbIS is to provide Donors and the Government of Mozambique with a greater understanding of USAID's activities in Mozambique. This exercise is part of the EU effort to strengthen Coordination & Harmonization in the follow up of the EU pilot Initiative on Coordination & Harmonization and a consequence of donor reporting requirements towards the Government of Mozambique, and in special the Departamento de Cooperação Internacional (DCI) and Departamento Nacional de Plano e Orçamento (DNPO) at the Ministry of Plan and Development (MPD).

The data provided is based on the data provided by USAID in Mozambique. Completeness and exactness can only be guaranteed up to the 4th Quarter 2005 disbursement data. Forecast data is subject to own judgment of those reporting, and therefore might not always represent reality.

The only sector codification allowed is the unique DAC/CRS sector classification which provides one five digit sector code per project, which should be the same in Headquarters and Field Offices. This will allow data from DbIS from different Donors to be compared nationally and internationally while at the same time providing a standard basis for analysis.

The same kind of report on 4th Quarter disbursements 2005 is available for each individual Donor participating in DbIS and for future quarterly reporting towards the Government of Mozambique.

Attached you will therefore find a list of all USAID's project disbursements as well as forecasts, a list of all USAID's projects available as Project Fact Sheets as well as a glossary of all the fields that may be mentioned in the Project Fact Sheets.
