Introduction:

The purpose of this full Austria 4th Quarter of 2005 disbursements extract of DbIS is to provide Donors and the Government of Mozambique with a greater understanding of Austria's activities in Mozambique. This exercise is part of the EU effort to strengthen Coordination & Harmonization in the follow up of the EU pilot Initiative on Coordination & Harmonization and a consequence of donor reporting requirements towards the Government of Mozambique, and in special the Departamento de Cooperação Internacional (DCI) and Departamento Nacional de Plano e Orçamento (DNPO) at the Ministry of Plan and Development (MPD).

The data provided is based on the data provided by Austrian Development Agency (ADA) in Mozambique. Completeness and exactness can only be guaranteed up to the 4th Quarter 2005 disbursement data. Forecast data is subject to own judgment of those reporting, and therefore might not always represent reality.

The only sector codification allowed is the unique DAC/CRS sector classification which provides one five digit sector code per project, which should be the same in Headquarters and Field Offices. This will allow data from DbIS from different Donors to be compared nationally and internationally while at the same time providing a standard basis for analysis.

The same kind of report on 4th Quarter disbursements 2005 is available for each individual Donor participating in DbIS and for future quarterly reporting towards the Government of Mozambique.

Attached you will therefore find a list of all Austrian project disbursements as well as forecasts, a list of all Austria's projects available as Project Fact Sheets as well as a glossary of all the fields that may be mentioned in the Project Fact Sheets.

Description of Data Fields in DbIS		
1.	Project / Programme Title	<u>Content/description:</u> A short, for the general public understandable title for the project.
2.	Project Number	Member State specific project number. EC Example: 9ACPMOZ001
3.	Mozambique Budget Project Nr.	So far rarely used field for input of the related to Mozambican Project Nr in the State Budget: OGE
4.	Donor	Name of EU Member State
5.	CRS ID No.	The CRS ID No. is given to a specific project once first reported to the OECD DAC/CRS system in order to track future commitment and disbursement data. Input of this field will be needed only in a future step once DAC/CRS reporting becomes more reliable.
6.	Project Description	<ul style="list-style-type: none"> The project description preferably consisting of Context, Goals/objectives and Key activities (main actions to achieve above described goals)
7. – 8.	Duration and status of project	The duration is the time from the actual project start (signing of e.g. contract) - to the actual anticipated project end date, which means that delays are taken into consideration. The status of a project can be selected to be either pipeline (design), ongoing or completed.
9.	Funding Type	<p>The project / programme's funding type:</p> <ul style="list-style-type: none"> Grant or Loan; A grant is a fund given as a gift for a specified purpose by a multilateral institution, a government, a non-governmental institution, a foundation, a company or an individual. A loan is a fund which must be repaid If it is On/Off Budget, meaning it appears or does not appear in the Orçamento Geral do Estado OGE; Whether it is Budget Support, a SWAP, a Project, Technical Assistance or a Study
10.	Total Amount Committed (EURO)	The amount of funding (up to date, in EURO) that has been committed. A commitment is a firm obligation expressed in an agreement or equivalent contract.
11.	Total Amount Disbursed (EURO)	The amount of project / programme funds (in EURO) that have been paid up to date.
12.	Total Amount Disbursed until 2004 (EURO)	The amount of project / programme funds (in EURO) that have been paid up to 31.12.03. Necessary for historic financial data
13.	Un-disbursed Funds (EURO)	The actual amount of funds (in EURO) still available at current date / moment.
14.-15.	Disbursements to Date and Forecasts (EURO)	<p>The amount of funds (in EURO) paid per Quarter of the Year, looking back 1 Year (here 2004), the present Year (here 2005) and the forecasts for the Quarters ahead of the present Year and the Year ahead (here 2006).</p> <p>The data calculated in the disbursed fields always takes the passed Quarters into account.</p> <p>Remarks:</p> <ul style="list-style-type: none"> Zero values in individual quarters are not displayed in reports. E.g. 0 Euros disbursed in 2004. 2004 will not appear.

Description of Data Fields in DbIS		
16.	Member State Contact	Either a person who directly answers questions, inquiries or feedbacks, or an administrative assistant who coordinates them.
17.	Project Internet Link	A direct web link to existing, more detailed project information on the internet (if available)
18.	DAC Sector	<p>Context/description: Area(s) of core activity of a project.</p> <p>As the DAC/CRS Sector codification is the only international standard useable for interagency or inter-donor statistical comparability, only this type of codification is used.</p> <p>The selection of only one sector is allowed. It is extremely important, that the selection reflects the official DAC/CRS codification used by the member State for reporting to the OECD. Member States should therefore request this information from their Head Quarters in case this information is not available in their Field Office.</p> <p>In case of any doubts and for further information, please contact alexander.boherr@cec.eu.int</p>
19.	Implementing Organization / Executing Agency	The Implementing Organization can be an NGO, a ministry or any other organization in charge of implementing the project. More than one can be entered.
20.	Geographic Location of the Project	An indication of district(s) and province(s) where the project is located and executed.
21.	MDG targets	Selected relevant Millennium Development Goals targets for the project. Multiple goal and target selections and therefore reporting possible.

Project Description

Project Title	PADM II Fase 2 - Support Project for Districts and Municipalities					
Donor Project Number	1695 - 02 / 2005					
Donor	AUSTRIA					
Project Description	Within the Sector Programme for Decentralisation of the Austrian Development Cooperation in Mozambique the project PADM 2 is a key activity in the Province of Sofala. It targets 7 areas: the municipalities of Dondo and Marromeu and the districts of Buzi, Dondo, Marromeu, Chibabava and Machanga. The project purpose to strengthen the decentralisation process - and herewith 'make the dividend of piece noticeable' to the poor population of Mozambique´s countryside - is realized with simultaneous activities on three levels: 1. support for local participatory decision-taking processes and hence upgrading of local infrastructure, 2. support for the elaboration of local strategic plans, and 3. capacity building on district and municipality level. The project constitutes the second phase of the PADM 2.

Project Title	APPLE - Aids Prevention, Positive Living and Empowerment (EU Cofinanced)				
Donor Project Number	1723 - 03 / 2003				
Donor	AUSTRIA				
Project Description	The overall objective of this project is to slow the spread of HIV/AIDS and mitigate its impact on those infected and affected in the Nacala Corridor area of northern Mozambique and southern Malawi and in the northern part of the Maputo Corridor of southern Mozambique. The project will achieve this objective by focussing on the following four components: (1) strengthening integrated HIV prevention, care and support services; (2) promoting positive behaviour change amongst youth and mobile populations; (3) increasing community capacity to respond effectively to the effects of HIV/AIDS; and, (4) enhancing advocacy for the rights of people infected or affected by HIV/AIDS. The project has been designed in accordance with national AIDS and poverty reduction strategies. There is also synergy between this project and initiatives by several EU member states, which are active partners in HIV-AIDS prevention, care and support in Mozambique and Malawi, including Denmark, Great Britain, France, Germany and Ireland. The project also has direct links with the 8th European Development Fund in Mozambique that is supporting the national STI programme.

Project Title	DESSOF - Mine awareness, surveys in Sofala Province				
Donor Project Number	1732 - 03 / 2000				
Donor	AUSTRIA				
Project Description	The overall aim of the project is a contribution to free the rural areas of the province of Sofala from mines by an increased coordination capacity of IND. Focus should be given to the establishment of mine action and demining mechanism for the efficient flow of information on mines. Mine awareness campaigns, Institution building of mine committees, Evaluation of previous awareness campagins, Improvement of communication mechanism regard-ing mines, Inclusion of all stakeholder (comunities, NGOs, authorities, Increasing of mine free zones. The program can be considered to be highly relevant, because -it responded to real needs, needs that weren't addressed by other projects, i.e. the mine problem in rural areas -it responded to the need of IND for capacity-building in the central region -it created a locally based and owned approach, which allows for more adapted needs assessment and to accurate responds to needs -the approaches chosen for the impact study and the MRE are original and effec-tive, and could serve as a model for future activities.

Project Title	HANDICAP INTERNATIONAL MINE CLEARANCE PROJECT					
Donor Project Number	1732 - 04 / 2003					
Donor	AUSTRIA					
Project Description	Overall objective: To contribute to a rapid and efficient reduction of the landmine impact in Mozambique, in order to reach the conditions required for an appropriate transfer of the demining responsibilities to local capacities and authorities. Project objective: To reduce mine impact risks in Inhambane, Manica and Sofala Provinces and to return the cleared infrastructures and lands to the population, in order to promote socio-economical development of the communities. Specific targets: -To participate to the IND, Five Year Mine Action Plan 2002-2006 -in the provinces of Manica and Sofala. -Clearance of all High and Medium Impact suspected sites, identified as under 15.000m2 in the provinces of Manica and Sofala. -Destruction of all UXOs identified in the provinces. -Level 2. Technical Survey and Marking of Low Impact sites

Project Title	HANDICAP INTERNATIONAL Mine Action Project Sofala					
Donor Project Number	1732 - 05 / 2005					
Donor	AUSTRIA					
Project Description	This project is aimed at contributing to the improvement of Mozambique's socio-economic development environment through the fulfillment of Country commitments under article 5 of the Ottawa treaty. Activities includea) Deployment of multi-skilled mine action teams (data gathering & reporting, socio-economic impact assessment, demining/EOD, Mine Risk Education/signalization) into 12 districts of Inhambane, Sofala and Manica Provinces;b) Concentration of mine action assets in clearance tasks more suitable to HI capacities, with introduction of an innovative explosives detection technology through the use of trained rats; c) Signalize Mined Areas for later clearance, reducing the risk of accidents by conducting Mine Risk Education in the local communities. At last, the mines/UXOs situation of the remaining districts will be known and included in the national database, contributing Mozambique's overall commitment to the Ottawa Treaty. The proposed action will last for 13 months and will benefit around 3,500,000 inhabitants of the 3 provinces potentially affected by the threat of mines.

Project Title	GIS 1 - Instalation of CIG for Geoinformation for Sustainable Development at the UCM in Beira/Moçambique				
Donor Project Number	1996 - 00 / 1999				
Donor	AUSTRIA				
Project Description	Spacial Devoplement Initiatives (SDI) gain momentum in the SADC region within the NEPAD initiative to fight poverty by broad based economic development. Development on national, provincial and district levels requires spatial information. The implementation of the GIS centre (CIG-UCM) at the Universidade Catholica de Mocambique in Beira therefore represents an important element to improve planning, decision-making, environmental management and socio-economic analysis in Central Mozambique. Setting up spatially explicit information structures provide cost-effective means of analysing data in support of planners and scientists. To improve the scientific standard of projects carried out by staff members is based on a scientific cooperation between the University of Salzburg (Department for Geography and Geoinformatics) and the North - South Institute for Development Cooperation. The academic partner as beneficiary of this project is the Catholic University of Mozambique, Beira, Sofala Province.

Project Title	GIS 2 - Capacity Building in Geoinformation for Sustainable Development at CIG/UCM in Beira/Moçambique				
Donor Project Number	1996 - 01 / 2003				
Donor	AUSTRIA				
Project Description	Spacial Devopment Initiatives (SDI) gain momentum in the SADC region within the NEPAD initiative to fight poverty by broad based economic development. In a first phase a GIS for sustainable development and regional planning has been established at a decentralised level to support development initiatives within Sofala province. During the devastating floods in 2000 and 2001 the GIS project could proof its importance under real terms, providing accurate information to many emergency help providers for thousands of people in need.To strengthen the capacity of the CIG unit and to improve the scientific standard of projects carried out by staff members the 2-year project (final phase) is based on a scientific cooperation between the University of Salzburg (Department for Geography and Geoinformatics) and the North - South Institute for Development Cooperation. The academic partner as beneficiary of this project is the Catholic University of Mozambique, Beira, Sofala Province.

Project Title	PAARSS I - Programme for Rural Water Supply and Sanitation in Sofala Province		
Donor Project Number	2003 - 00 / 1999		
Donor	AUSTRIA		
Project Description	<p>The project objective is to contribute on the satisfaction of drinking water supply and basic sanitation needs, through participatory demand responsive approach, in the rural communities of 5 out of 13 districts and 2 municipalities in the Sofala province, in a horizon of 15 years. The project is a demand driven integrated sector project for rural water supply and sanitation, in the sector of rural development integrated in the Austrian Development Cooperation Country Programm developed within the frame of the bilateral cooperation of the Provincial Government of Sofala in Mozambique and the Federal Government of Austria. The project area is concentrated to the geographical area of 5 Districts of Marromeu, Cheringoma, Dondo, Buzi and Chibabawa and the 2 Municipalities of Marromeu and Dondo. The selection of the districts for PAARSS project followed the needs and recommendation of DPOPH at the very beginning of the project and according to the availability of financial means of Austrian Development Cooperation. The main project activity beside construction of infrastructures is to create capacity for management of the infrastructures in order to guarantee safe and durable services. The choice of technology applied has to respond to the local management capacity and to the hydro geological situation in the area. Water and Sanitation is regarded as an integrated process where ecological friendly solutions are procured. The project strives to improve the capacity locally where the activities are being implemented. If certain resources don't exist they are initiated and encouraged by the project through already existing structures and institutions. Theatre groups at district level have been created and trained since there was need of a fast and understandable means of communication with the communities, which would provoke fast action. In the process of finding appropriate local applicable technology, users and local constructors have been consulted all the time. Technology developed and used is basic and it is oriented at improving water use efficiency; environmental protection and robustness such that program intervention results produce durable and replicable outcomes. The Ecosan toilets and the wastewater recycling laundry are part of the PAARSS efforts of sustainable solutions. The structure of the project is decentralised to the four major partners in the co-operation: the beneficiaries in the rural areas, the district and the municipal administrations, the local private sector and the Department for Water and Sanitation - DAS at the Provincial Directorate for Public Works and Housing – DPOPH at province level. The project consists in a small co-ordination body with technical expertise. The activities are planned, co-ordinated monitored together with DAS, and – if available and possible - with the district administrators/mayors. The yearly activity plans are authorised and supervised by the partners in co-operation with the Austrian Development Co-operation and National Directorate for Water.</p>

Project Title	PAARSS II - Programme for Rural Water Supply and Sanitation in Sofala Province				
Donor Project Number	2003 - 01 / 2003				
Donor	AUSTRIA				
Project Description	<p>The project objective is to contribute on the satisfaction of drinking water supply and basic sanitation needs, through participatory demand responsive approach, in the rural communities of 5 out of 13 districts and 2 municipalities in the Sofala province, in a horizon of 15 years. The project is a demand driven integrated sector project for rural water supply and sanitation, in the sector of rural development integrated in the Austrian Development Cooperation Country Programm developed within the frame of the bilateral cooperation of the Provincial Government of Sofala in Mozambique and the Federal Government of Austria. The project area is concentrated to the geographical area of 5 Districts of Marromeu, Cheringoma, Dondo, Buzi and Chibabawa and the 2 Municipalities of Marromeu and Dondo. The selection of the districts for PAARSS project followed the needs and recommendation of DPOPH at the very beginning of the project and according to the availability of financial means of Austrian Development Cooperation. The main project activity beside construction of infrastructures is to create capacity for management of the infrastructures in order to guarantee safe and durable services. The choice of technology applied has to respond to the local management capacity and to the hydro geological situation in the area. Water and Sanitation is regarded as an integrated process where ecological friendly solutions are procured. The project strives to improve the capacity locally where the activities are being implemented. If certain resources don't exist they are initiated and encouraged by the project through already existing structures and institutions. Theatre groups at district level have been created and trained since there was need of a fast and understandable means of communication with the communities, which would provoke fast action. In the process of finding appropriate local applicable technology, users and local constructors have been consulted all the time. Technology developed and used is basic and it is oriented at improving water use efficiency; environmental protection and robustness such that program intervention results produce durable and replicable outcomes. The Ecosan toilets and the wastewater recycling laundry are part of the PAARSS efforts of sustainable solutions. The structure of the project is decentralised to the four major partners in the co-operation: the beneficiaries in the rural areas, the district and the municipal administrations, the local private sector and the Department for Water and Sanitation - DAS at the Provincial Directorate for Public Works and Housing – DPOPH at province level. The project consists in a small co-ordination body with technical expertise. The activities are planned, co-ordinated monitored together with DAS, and – if available and possible - with the district administrators/mayors. The yearly activity plans are authorised and supervised by the partners in co-operation with the Austrian Development Co-operation and National Directorate for Water.</p>

Project Title	Strengthening the Election Coverage Capacity – Media and Democracy in Mozambique - SAD.1				
Donor Project Number	2040 - 01 / 2004				
Donor	AUSTRIA				
Project Description	<p>This project's overall objective is to contribute to the reduction of absolute poverty, improvement of the living conditions by means of strengthening of the participation of all stakeholders in a sustainable, democratic, economic and socio-cultural development. The purpose of this project is to contribute to the process of consolidation of democracy in Mozambique by empowering journalists in various parts of Mozambique through improved communication methods, election coverage assistance and interactive media forums for discussion of relevant topics in the period preceding and after the 2004 presidential and legislative elections. Expected results: a) More informed analysis and improved coverage of national elections, including a larger number of women journalists involved in elections coverage including gender aspects being considered. b) Strengthening sustainable mechanisms for interaction, exchange of experiences and institutions, such as the Mozambican Editors' Forum (EDITMOZ), providing capacity-building, networking and similar support of Mozambican media. c) Increased reflection of local and regional issues in the media in Mozambique, exchange of experience including identification of common issues and trends emerging, contributing to the definition to democratic norms in the Southern African region. Project activities have begun in September, however the project will be financed in basket fund-way, which means that project activities before financing by ADA is guaranteed will be supported by other donors of this project, i.e. the Irish Development Cooperation contributing 50.000 USD and the Finnish Development Cooperation with 30.000 USD. The Swedish Embassy is providing approximately 66.000 USD. This project has an explicit Gender-component that aims at strengthening the gender substance of reporting elections in Mozambique, beyond simply numbers. Further it is an aim of this project to actively encourage and create the conditions for the involvement of more women journalists in elections coverage. In its conceptualisation the project is integrated in the context of the Austrian Development Cooperation and reflects the developments in Mozambique. The project activities aim at supporting the democratic process by capacity building efforts for the media so that the forthcoming elections be covered in the most professional and well-prepared way possible.</p>

Project Title	Survey on Voter Attitudes and Behaviour of the 2004 elections in Mozambique - EIS.1				
Donor Project Number	2040 - 02 / 2004				
Donor	AUSTRIA				
Project Description	<p>4.1 Overall objective: This project's overall objective is to contribute to the reduction of absolute poverty, improvement of the living conditions by means of strengthening of the participation of all stakeholders in a sustainable, democratic, economic and socio-cultural development. 4.2 Project purpose: The purpose of the project is to support basic rights and the political process by the provision of data on voter attitudes and –performance. 4.3 Expected results a) Nation-wide survey on voter behavior and –attitudes was carried out successfully. Data and information on why voters decide for one or the other political party or politician and which factors influence these decisions are provided in this survey. b) The survey report has been produced and published. c) The study results have been disseminated widely. 4.4 Activities: The activities in this project will be: a) Preparation and conduct of a nation-wide survey on voter attitudes and behavior. a-1: Preparation of the questionnaire forms, reviewing information from various sources on the 2004 elections and electoral process, a-2: Logistical preparations and launch of survey in all provinces, a-3: Conduct of survey in all provinces, a-4: Bringing the filled-out questionnaire forms to Maputo, a-5: Entry of data and running of cross-tabulation routine programs, b) Elaboration and publication of survey report. b-1: Analysis of results, b-2: Drafting of survey report, b-3: Reviewing draft and finalization of Portuguese version and English summary, c) Dissemination of study-results in a workshop, seminar or conference and additionally by means of a cooperation with Radio Mozambique, where radio programs will be provided with information on the progress and findings of the study, as also with other relevant information on electoral issues. c-1: Introductory workshop after the elections for and with program directors of Radio Mozambique to brief them on the survey, the cooperation with EISA Mozambique and on how to proceed in this cooperation activities. This workshop will be organized by staff of the EU-project RADICE, c-2: Dissemination of study contents, aims and results, in cooperation with Radio Mozambique (radio programs, live transmissions in the project RADICE) c-3: Presentation of research findings in a workshop, seminar or conference, planned to be conducted in cooperation with Radio Mozambique. In its conceptualisation the project is integrated in the context of the Austrian Development Cooperation and reflects relevant developments in Mozambique. The project activities aim at supporting the democratic process by the conduct of a study on voter attitudes and -behaviour. It is assumed that the implementation of this project will have positive effects and contributes to the objectives of the Austrian Development Cooperation's program in Mozambique, by favouring the democratic process and decentralization by means of supporting the production and provision of data.</p>

Project Title	PROME - Economic Promotion of Smallholder Farming Units				
Donor Project Number	2092 - 00 / 2001				
Donor	AUSTRIA				
Project Description	Target group: The market-oriented (however not yet fully market-integrated) smallholder farmer households of the 2 districts. Overall objective: Livelihood and environmental sustainability of smallholder farming households in the 2 project districts have been secured. Project purpose: The rural smallholder households targeted by the project increase their income generating capacity and have access to complementary support from public and private service providers. Expected results: 1.Self-reliant and self-managed Farmers Associations (FAs) at grass-root and secondary level are established and strengthened to carry out rural business operations. 2.A participatory and cost-effective extension system ("farmer to farmer") is introduced and consolidated, in coordination with the DPASofala, the 2 DDAs and other service providers. 3.The smallholder farming households produce market-led cash crops, increasing their productivity and applying sustainable technologies in primary production and post-harvest conservation. 4.Viable and appropriate small- and medium-scale agro-processing technologies are identified, adapted, and promoted. 5.Pilot production and marketing activities, applying innovative technologies and strategies, are promoted and supported.
