1. User Manual Introduction

In September 2007, the DFID representation in Nicaragua hired ODAdat Aid Information Management Systems (AIMS) to create a dynamic version of the EU Bluebook based on Best Practices of AIMS in Mozambique (ODAmoz) and the EU Bluebook in Vietnam. **ODAnic** was established in order to centralise, and make available in a harmonised and coordinated way, information on the activities of the European Commission and all EU Member States operating in Nicaragua. In a further step towards greater harmonisation, it was agreed to open up **ODAnic** in future to ALL Donors present in Nicaragua and link where possible to the Government of Nicaragua's own Aid Information System (SYSODA).

ODAnic & The EU Bluebook is currently available online at www.odadata.eu/odanic. **ODAnic** enables users to run a variety of reports including a full list of development activities, reports by DAC sector, by region, by Donor, as well as offering detailed **commitment & disbursement information and 3 year forecasts** on specific projects themselves. The EU Bluebook offers dynamic, database linked, information on the structure and content of EU Development Cooperation in general as well as specifically in the Nicaraguan context. Individual Donor Profiles, including EU donor country strategies, for the European Commission and all EU Member States active in Nicaragua, are available.

Information will be managed online by Donors themselves who have designated focal points to oversee their data entry.

This user manual is a fluid document. Its purpose is to be of use and support for you the user, so if you have suggestions about how to improve it please contact the **ODAnic Master Focal Point** at: alexander.bohr@odadata.eu

1.1 Purpose of the database

The overarching purpose of **ODAnic** is to improve coordination & harmonisation among EU Donors and to provide essential information for donors and the Government of Nicaragua with a snapshot of Donor development assistance programmes and projects as well as strategies. **ODAnic** will serve as an online tool to view and update the data, and generate reports in the form of profiles, tables and geographic maps that can be printed or posted on a website.

ODAnic has 2 main goals:

- To improve the Coordination & Harmonisation among EU Donors and its partners in GRUN; and
- To provide an overview to the public on EU Donor strategies, programmes and projects in Nicaragua.

1.2 Why a *web-based* database?

A successful multi-user database needs to have several key elements. These include:

- data collection;
- data maintenance;
- data publishing; and
- application support.

A web-based database reduces management risks because of the following advantages:

- a. The data collection follows a decentralized approach. Data can be entered on any computer that is connected to the Internet.
- b. The data can be updated anytime and anywhere. There is no need to distribute and collect questionnaires.
- c. As reports on the Internet can directly retrieve data from the database, published project information are up to date at any time.
- d. Users who are familiar with the Internet find themselves in a customary environment.
- e. There is no need to distribute and install additional software. New database releases do not require any action from the user side.

1.3 Scope of information

In order to improve Coordination & Harmonisation among EU Donors present in Nicaragua and to provide forecast information for the Nicaragua Budget Cycle & SYSODA, **ODAnic** includes ongoing projects as well as pipeline projects where possible.

12 Donors are participating in **ODAnic**: Austria, Denmark, EC, Finland, France, Germany, Italy, Luxembourg, Netherlands, Spain, Sweden, U.K.

It is up to each EU Donor to determine the level of detail to be displayed in the database and individual Donors are requested to input information on their activities according to programme, project or sub-project directly. This saves time, ensures accuracy of data, and contributes to across Donor ownership of the database.

It is anticipated that in most cases project level information is provided, but that sub-project level should also be taken into consideration if the sub-projects reflect sector specific activities of a project and/or if its location, partner or financial data differ from each other. Programme level should be chosen if the programme's projects contribute to the same sector, if they are supported by a limited number of partners and if the duration, location and government counterpart are in line to a large extent.

1.4 Structure

The structure of **ODAnic** includes among other the following data series **for individual Projects**:

1. Donor	19. Co-Funding Donors
2. Donor Agency	20. National/Regional Program
3. Project Number	21. Type of Implementation
4. OECD ID	22. DAC Sector
5. Recipient Country Budget Number	23. DAC CRS Sector
6. Project Title	24. Type of Aid
7. Project Description	25. Grant / Loan
8. Country Strategy Link	26. Government Counterpart
9. Project Status	27. Implementing Agencies
10. Start – End Date	28. Contracted Agencies
11. Total Commitments (to date)	29. Rio & Policy Markers
12. Total Payments (to date)	30. MDGs
13. Funds for 2007 (incl. On/Off Budget – Treasury status)	31. Focal Regions
14. Funds for 2008 (incl. On/Off Budget – Treasury status)	32. Officer Responsible
15. Funds for 2009 (incl. On/Off Budget – Treasury status)	33. Internet Link
16. Funds for 2010	34. Comments
17. Funds for 2011	35. Last Update
18. Co-Funding Totals	

Donor focal points are responsible for inputting the data online. See Appendix glossary for details & definitions

The structure of **ODAnic** includes among other the following data series **for Donor Profiles**:

1. Management System for ODA	15. Period Covered
2. Total Staff in Nicaragua	16. Amount Foreseen
3. Total Expatriate Staff	17. Internet Link
4. Total Local Staff	18. Focal Sectors and their Regions
5. Contact Address	19. Disbursements versus EU Disbursements in %
6. Degree of Centralisation–Programming	20. Grant versus Loans in %
7. Degree of Centralisation–Project Appraisal & Approval	21. Multilateral ODA versus Total ODA in %
8. Degree of Centralisation–Tenders	22. Bilateral ODA versus Total ODA in %
9. Degree of Centralisation–Commitments & Payments	23. Support to NGOs versus Total ODA in %
10. Degree of Centralisation–Monitoring & Evaluation	24. Top 3 Regions
11. Commitment to Budget Support	25. Disbursements in Millions 2007 & 2008
12. Commitment to sector-wide approaches	26. Disbursements per DAC Sector
13. Commitments to projects	27. Summary of current Country Strategy or Policy
14. Country Strategy Paper Yes/No	

Donor focal points are responsible for inputting the data online. See Appendix glossary for details & definitions

1.5 The User / The Audience

ODAnic has two main groups of users, the focal points (data provider) and the general public (data viewer/audience). Therefore ODAnic can be accessed in two ways, through two different interfaces. One is the data input or -maintenance interface, which is password protected and only used by EU Donor focal points to enter and update their data. The other is the data presentation interface, which is freely accessible for anyone through www.odadata.eu/odanic and used to view the EU Bluebook and the project lists and -reports. It is expected there will be several main users of these lists and reports including development partners (GRUN, Donors, UN agencies and other organizations and institutions) and the general public.

1.6 Responsibilities

The DFID representation in Nicaragua hired ODAdat Aid Information Management Systems (AIMS) to design and manage ODAnic for the EU Donor Community in the implementation phase. It is planned that the EU Heads of Cooperations in Nicaragua will take up general and political oversight responsibility of the database application. Each EU Donor has nominated a database focal point responsible for inputting relevant data. Responsibilities may be defined as follows:

<u>Donor Focal Point</u>	<u>ODAdat</u>
<ul style="list-style-type: none"> • Provide complete, accurate and up-to-date Donor & project data • Maintain and quarterly update database with Donor & project information 	<ul style="list-style-type: none"> • Technical responsibility • Quality control • User trainings and password management • Support for focal points regarding data entry

2. ODAnic Query Functions

The following clipping shows the database as it appears when you enter the first time on www.odadata.eu/odanic

You are welcomed to the database by an introductory page with the main menu items listed on the top side of the screen (from left to right):

- Home
- EU Bluebook
- Search Projects by
- Design own Report
- Links, Downloads
- Resources
- Contact
- Espanol for the Spanish version of ODAnic

This page gives you an overview of **ODAnic**, its purpose and history while being at the same time the entry point to all query needs. It is also from here that you reach the **ODAmapp** tool which is explained in a separate chapter.

2.1 The EU Bluebook

You are welcomed to the **EU Bluebook** component of **ODAnic** by a Table of Contents page, <http://nic.odadata.eu/bluebook/contents>, with the main menu items, equal to the table of contents, listed on the top side of the screen (from left to right):

Resume of current Country Strategy

AUSTRIA - Current Country Strategy

Cooperación para el Desarrollo, Programa País para Nicaragua 2003 - 2006

Priority country - Nicaragua

Bilateral relations between Austria and Nicaragua intensified in the early 1980s. It should be mentioned that Austrian NGOs played an important role since thanks to them, in the early 1990s, Nicaragua became a priority country for Austrian Development Cooperation. There are more than 30 sister-city or twinning relations between Austria and Nicaragua and there are several cooperation relations between schools.

In the early 1990s, Austrian Development Cooperation was able to articulate many diverse activities into a Country Programme and it brought cooperation with Nicaragua into a structured form. In recent years, fostering rural development and small and medium business have been concretised as the principal themes, as well as healthcare and the development of capacities in the social sector. The Programme has the objective of concentrating on the immediate needs of the most disadvantaged population in municipalities and regions of Nicaragua with structural weaknesses and it aims to contribute there to the struggle against poverty by promoting sustainable social, economic, and environmental development. This is in line with the National Development Plan of the Government of Nicaragua.

In recent years, it was also possible to establish more intensive cooperation with Nicaraguan State institutions like MINREX and several others: for example, MINSA, MINSAL, MIFIC, INPYME, INAFOR, MAGFOR, INTA, the regional authorities of the RAAN and the RAAS, and the local governments of León and all nine municipalities in the Department of Masaya. In May 2007, the second bilateral consultations were held, allowing for an exchange of information about the priorities of the new government and the present sectors of work of Austrian Cooperation. The consultations will be an important input for the formulation of a new bilateral cooperation programme in the coming years.

Austrian Development Cooperation has three general objectives: poverty reduction, conflict prevention and assuring peace, and environmental protection. Austrian Development Cooperation also has a special interest in all its programmes to promote the equality of women in all social, economic, cultural, and development processes. Along this line, Austria is funding specific projects to promote the rights of women and youth, for protection against violence, as well as for recognition of their social and economic rights; in this way, contributing as well to the democratisation of society.

The 2003-2006 country programme can be found on the following webpage:

Project Title

Saneamiento Lago MGA/PTAS

Project Description

El componente de la Planta de Tratamiento de Aguas Servidas (PTAS) es parte del Programa Integral del Saneamiento del Lago de Managua. Las aguas servidas (residuales) de la capital serán conducidas mediante una red de tuberías y estaciones de bombeo hacia la PTAS. Ahí serán tratadas con la tecnología adecuada y hasta entonces podrán ser vertidas al Lago de Managua. De esta forma se frenará su constante contaminación y se le permitirá iniciar el proceso de su regeneración natural.

2.2.2 Search Projects by Sectors:

You can reach the main menu items listed on the top side of the screen such as “Search Projects by” from home or from most of the pages as the menu items are part of a separate frame. In order to reach the predefined query “Search Projects by: Sectors”, you can proceed as with the Donor query but selecting instead “Sectors”:

The list that opens is similar to the Donor list but sorted according to the main **OECD/DAC/CRS 3 digit sectors** chosen as international adhered to project sector codification: <http://nic.odadata.eu/reports/sectors>. The list shows the amount of Programmes/Projects currently allocated to individual DAC Sectors in ODAnic and a link to further more detailed lists. Selecting the overall major sectors mentioned such as 11100 Education or 12100 Health General will provide you with a list of all projects including sub sectors:

2.3 Search Projects by "Design Own Report":

The **"Design Own Report"** function of **ODAnic** is its most powerful and user friendly tool. It is here that users are able to filter content available in the database according to their needs, using different criteria such as Donors, Regions, Rio & Policy Markers, MDGs, DAC Sectors, Grant & Loan, Type of Aid, On/Off Budget & Treasury, Type of Aid as well as Status. **"Design Own Report"** enables also information queries in the archive of **ODAnic** with projects completed, starting as of 2007.

In order to reach the **"Design Own Report"** function you need to select the relevant icon on the menu bar of **ODAmoz**:

ODAnic is a new electronic tool that provides information on EU Official Development Assistance (ODA) to Nicaragua. It was created in response to the Paris Declaration which advocates strengthened coordination and harmonisation among donors and alignment with the poverty reduction strategy of the Government of Nicaragua. ODAnic allows users to consult EU donor country strategies, projects and programmes: where they are operating, who finances them, and which organisation implements them. It is a user-friendly tool, accessible to all through the internet. Its "Design Your Own Report" function makes it easy to search for specific information through a set of predefined criteria (i.e. donor, sector, location, project status, funding type and MDG) and offers tables, geographic maps (ODAmap) and information on Country Strategies. Welcome to ODAnic!

Query results can be shown either as **Web** (Internet Explorer) window or as **EXCEL** sheet for further user needs and individual applications. In the Web output format you also have access to the individual fact sheets.

Further query results can be shown in **different currencies as output** with currently following options possible: **DKK, EUR, GBP, SEK and USD**. A list of used currencies and exchange rates can be found under the menu item Resources. The exchange rates used are the average exchange rates from the OECD or the EC Budget website. The current and forecast years use the average exchange rates of the past year.

2.4 Annual Totals:

You can reach the predefined reports "Annual Totals" through Design own Report under "Action" see above chapters design own report screen shot.

The report that opens is different to the previous reports & lists as it provides the user with aggregated information on funding by Donors over currently a 5 year period, starting with 2007 and thereby including the

MTEF forecasts years per default. A selection of output currency and either commitments or payments is currently possible. It is intended to increase this by Design own Report contents in the future.

Below screen shot shows the current aggregated ODAnic Commitments in EUR 2007 – 2011 Forecast per EU Donor: <http://nic.odadata.eu/reports/totals?currency=EUR>

2.5 ODAmaph:

Next to pure tables and graphs already available on ODAnic, the ODA project relevant information in Nicaragua now is also made available at a glance, by the web-map based Geographic Information System ODAmaph.

ODAmaph will ensure the future use of GIS functionalities for online Donor Atlas style queries and data mining.

The ODAmaph module is integrated as a **hyperlink on the Satellite Image** of Nicaragua on the Homepage of ODAnic:

<http://www.odadata.eu/odanic>

The screenshot shows the ODAnic website homepage. At the top left is the coat of arms of Nicaragua. The main logo 'odanic' is in large blue letters, with an orange arrow pointing from the 'i' to the 'n'. To the right of the logo is the text 'OFFICIAL DEVELOPMENT ASSISTANCE TO NICARAGUA DATABASE' and a small flag of Nicaragua. Below the logo is a navigation bar with links: Home, EU Bluebook, Search projects by:, Design own report, Links, Downloads, Resources, Contact, and Espanol. A text line below the navigation bar reads: 'ed all their projects. ODAnic will open again once the update schedule has been decided on'.

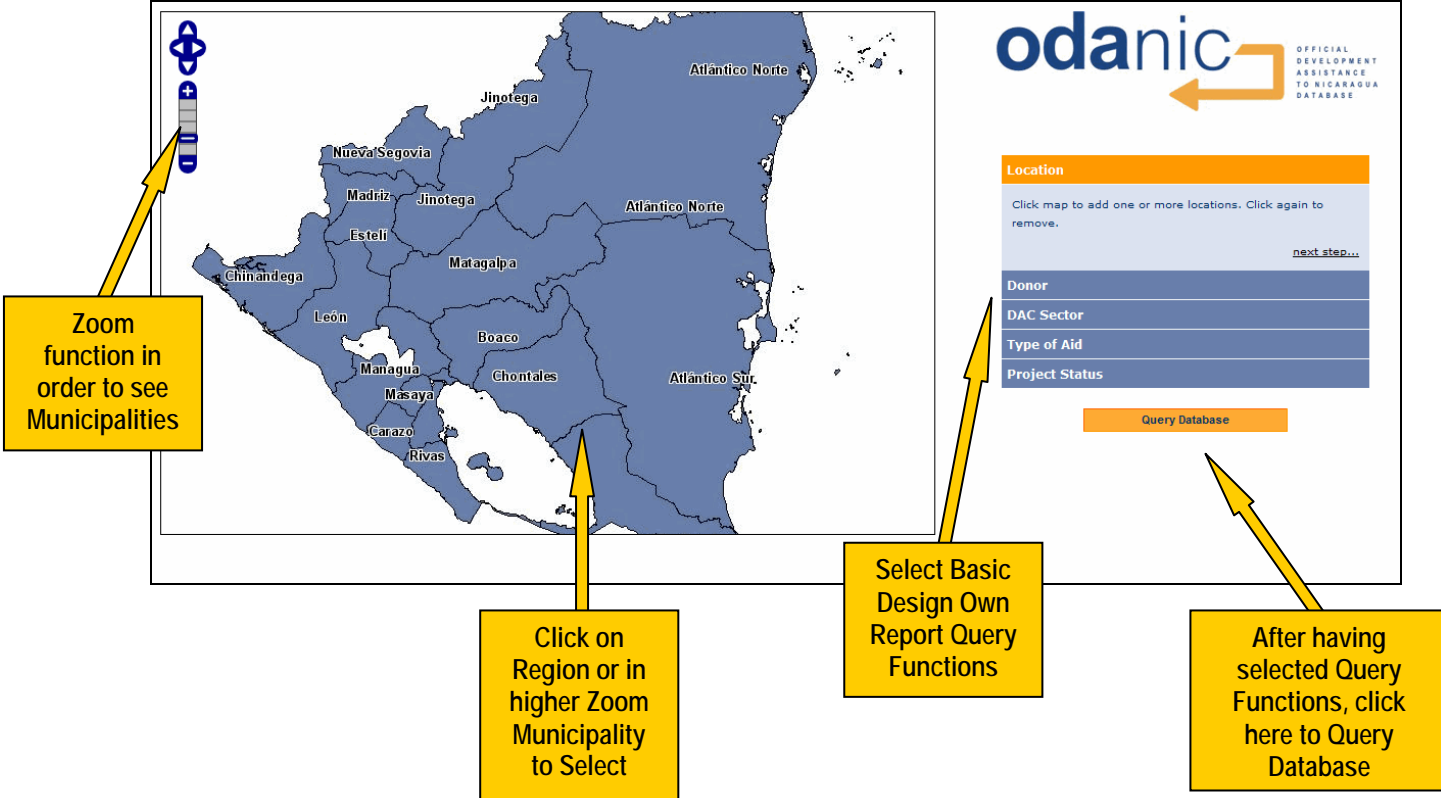

On the left side, there is a map of Nicaragua with a yellow arrow pointing to it from a yellow box containing the text 'Search Projects via ODAmap'. Below the map is the text 'Click on Map for ODAmap'.

In the center, there is a text block: 'ODAnic is a new electronic tool that provides information on EU Official Development Assistance (ODA) to Nicaragua. It was created in response to the Paris Declaration which advocates strengthened coordination and harmonisation among donors and alignment with the poverty reduction strategy of the Government of Nicaragua. ODAnic allows users to consult EU donor country strategies, projects and programmes: where they are operating, who finances them, and which organisation implements them. It is a user-friendly tool, accessible to all through the internet. Its "Design Your Own Report" function makes it easy to search for specific information through a set of predefined criteria (i.e. donor, sector, location, project status, funding type and MDG) and offers tables, geographic maps (ODAmap) and information on Country Strategies. Welcome to ODAnic!'. Below this text is a link 'read more...'. A yellow arrow points from the 'Search Projects via ODAmap' box to the 'Design Your Own Report' link in the navigation bar.

On the right side, there is a thumbnail image of the 'EU BLUEBOOK 2007' cover with a yellow arrow pointing to it from a yellow box containing the text 'Click on Image for EU Bluebook 2007'.

At the bottom of the page is a copyright notice: '© 2007-2008 ODAdat Aid Information Management Systems (AIMS) - www.odadata.eu'.

Once you click the hyperlink "Search Projects via ODAmap", following page opens:

The screenshot shows the ODAnic search interface. On the left is a map of Nicaragua with various municipalities labeled: Jinotega, Nueva Segovia, Madriz, Esteli, Chinandega, León, Matagalpa, Boaco, Managua, Masaya, Chontales, Carazo, Rivas, Atlántico Norte, and Atlántico Sur. A yellow arrow points from a yellow box containing the text 'Zoom function in order to see Municipalities' to the map's zoom controls.

On the right is a search form with the 'odanic' logo at the top. The form has a 'Location' section with the text 'Click map to add one or more locations. Click again to remove.' and a 'next step...' link. Below this are four input fields: 'Donor', 'DAC Sector', 'Type of Aid', and 'Project Status'. A yellow arrow points from a yellow box containing the text 'Select Basic Design Own Report Query Functions' to the 'next step...' link. Below the input fields is a 'Query Database' button. A yellow arrow points from a yellow box containing the text 'After having selected Query Functions, click here to Query Database' to the 'Query Database' button.

At the bottom center, a yellow arrow points from a yellow box containing the text 'Click on Region or in higher Zoom Municipality to Select' to the map.

This is the basic web based module of ODAmapping providing you with a default map of Nicaragua and its Regions & Municipalities..

On the left hand you will find the **“Zoom Function”** that enables you to zoom in and out of the Map. Once **you zoom in enough, the Municipalities will be shown on the Map**. You can **“pane”** the Map by clicking on it while at the same time moving the Mouse.

On the right hand you will find a menu with **“Basic Design Own Report Query Functions”** such as Location, Donor, DAC Sector, Type of Aid and Status. You can select the location (Region or Municipality) by clicking on the Map. You will see the name appear in the location part. Click again to remove your selection.

The **Basic Design own Report Query Function** enables the user to Query the map e.g. just for Austrian projects/ activities in the Health Sector for RAAN.

Following standardized report will appear after you have selected the above options (Location: RAAN, Donor: Austria, Sector: Health) and pressed **“Query Database”**

Please be aware however that the financial information and totals mentioned here, are the totals of **“ALL” Project Funds found in the query**. This means, that if the project(s) has several regions or municipalities the real amount of funds allocated to the selected Region or Municipality can be different.

Further be aware that ODAmapping just covers those projects that have been assigned a region or a municipality. National projects cannot be queried here. Please refer to Design your Own Report.

3. Additional Information available

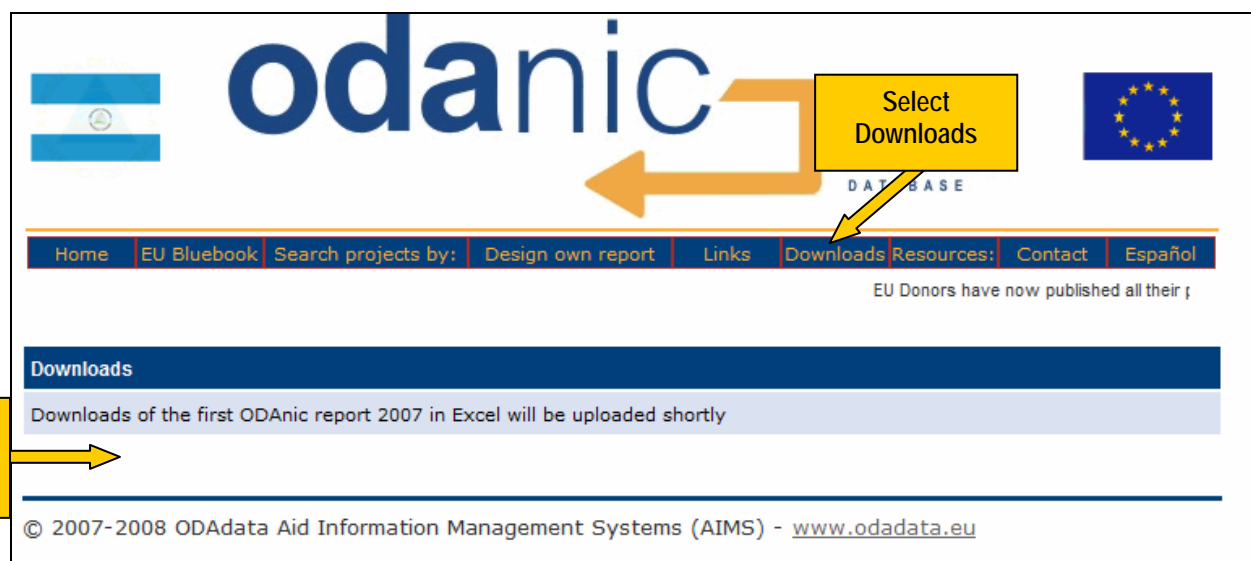

3.1. Links

This page provides the user with interesting and important links to field office web sites of Donors included in ODAnic, as well as relevant sites such as OECD/DAC: <http://nic.odadata.eu/links>.

3.2. Downloads

This page is the place where **all finalized reports in EXCEL or PDF format** are made available for all users for easy download. In most cases these documents are .zip files in order to reduce the size of the documents. In this initial phase no downloads are yet available: <http://nic.odadata.eu/downloads>

3.3. Resources

The "Resources" part of the menu is where you will find .pdf versions of the ODAnic manual, the Glossary, the DAC – CRS Manual and a list of Used Exchange Rates, containing clear instructions on how to use the database and all the definitions of what fields are available. In order to reach the "Resources" section you need to select the relevant icon on the menu bar of ODAnic:

Following example shows the list of **Used Exchange Rates in the individual years**. The exchange rates used are the average exchange rates from the OECD or the EC Budget website. The current and forecast years use the average exchange rates of the past year: http://nic.odadata.eu/exchange_rate/show

Appendix:

Glossary I: Individual Projects - Data Fields Details & Definitions

1.	Donor	Name of Donor such as France or EC
2.	Donor Agency	Name of Donor Agency. For Germany e.g. KFW, GTZ etc.
3.	Project Number	Specific Project Number. EC Example: 9ACPMOZ001
4.	OECD ID	Unique Project Number given by the OECD DAC on first reporting of the project to the OECD.
5.	Recipient Country Budget Nr	Specific Project Number that appears in the Nicaraguan State Budget if On-Budget
6.	Project Title	Official Title of the Project used internally by the Donor
7.	Project Description	<p>The project description preferably consists of the following information:</p> <p>Context: Basic background information which helps (the general public) to understand the project description.</p> <ul style="list-style-type: none"> • Problem to be addressed • Explanation on the national institutional and legal framework • Reference to findings of relevant reviews or evaluations. <p>Goals/objectives: The purpose or goal representing the desired result that a project or programme seeks to achieve. This can be written in a short statement covering the main objectives pursued by the project, or in a list of objectives, described in keywords. Include target groups and number of beneficiaries if the data is available and if it helps to understand the scope of the project. If goals are described by using % figures, make sure that the respective basis (100%) and the time frame are known.</p> <p>Implementation:</p> <ul style="list-style-type: none"> • Key activities (main actions to achieve above described goals) • Explanations on cooperation and partnerships (context specific information on partner involvement; additional information to the 'partners' section)
8.	Country Strategy Link	Link to the country strategy or policy included in the Donor Profile section
9	Status	The status of a project can be selected to be either pipeline, ongoing or completed.
10	Start-End Date	The time from the actual project start- to the actual anticipated project end date, which means that delays are taken into consideration.
11.	Total Commitments (to Date)	Total Funds committed so far to the project.
12.	Total Payments (to Date)	Total Funds paid or disbursed by the project so far. To date here means up to the past quarter.
13.	Funds for 2007	Funds for 2007 include the total amount of Funds committed and paid or disbursed by a project in 2007 as well as the quarterly detail of the payments. This field also includes the ON/OFF Budget or Treasury situation of the Project
14.	Funds for 2008	Funds for 2008 include the total amount of Funds committed and paid or disbursed by a project in 2008 as well as the quarterly detail of the payments to date. It also includes the Forecast Commitments and Payments for 2008 as well as the ON/OFF Budget or Treasury situation of the Project
15.	Funds for 2009	Funds for 2009 include the Forecast Commitments and Payments for 2009 as well as the ON/OFF Budget or Treasury situation of the Project

Glossary I: Individual Projects - Data Fields Details & Definitions		
16.	Funds for 2010	Funds for 2010 include the Forecast Commitments and Payments for 2010
17.	Funds for 2011	Funds for 2011 include the Forecast Commitments and Payments for 2011
18.	Co-Funding Totals	This field includes information on the total contribution (commitments) of other Donors towards the implementation of the project. Co-Funding is seen here as financial delegation of the funds by Donors towards the Donor reporting. The Donor reporting must have implementation responsibility. This is not to be confounded with Common Fund Co-Financing arrangements
19.	Co-Funding Donors	This field gives the Names of the Donors Co-Funding
20.	National/Regional Program	This field is meant to give information on whether the project is part of a National or Regional Strategy and if it is Regional whether the national or country component is financially clearly distinguishable
21.	Type of Implementation	<p>Following possibilities exist:</p> <p>Multilateral: if the Project/Program is implemented via a UN Agency/Multilateral such as e.g. the World Bank / ADB/ UNDP</p> <p>Bilateral: if the Project/Program is implemented as direct agreement between Donor and GoN meaning not via UN Agency/Multilateral or NGO</p> <p>NGO: if the Project/Program is implemented via NGOs</p>
22.	DAC Sector	<p>Area(s) of core activity of a project.</p> <p>As the DAC/CRS Sector codification is the only international standard useable for interagency or inter-donor statistical comparability, it is necessary to use only this type of codification. See Appendix 2</p> <p>The selection of only one sector is allowed. It is extremely important, that the selection reflects the official DAC/CRS codification used by the member State for reporting to the OECD. Member States should therefore request this information from their Head Quarters in case this information is not available in their Field Office.</p> <p>The DAC Sector is the 3 digit code such as 111000 Education, 12100 Health General</p>
23.	DAC CRS Sector	Next to the Main 3 digit DAC Sector Code, the DAC CRS Sector is the more specific 5 digit sub-Sector code such as 11110 Education policy and administrative management. See Appendix 2
24.	Type of Aid	<p>Following possibilities exist:</p> <p>Technical Assistance, Project/Programme, Budget Support (JFA), Multi Donor Common Fund for Civil Society (for Governance), FC - PRORURAL, FC - PRO SALUD, FC - FONDO FED, FC - PROMIPYME, FC - FONIM etc..</p>
25.	Grant / Loan	This field defines the type of financing of the activity. Whether it is a Grant or a Loan
26.	Government Counterpart	This field is meant for future inclusion of Nicaraguan Government beneficiaries as codified e.g. in SYSODA
27.	Implementing Agencies	The Implementing Agency can be an NGO, a ministry or any other organization in charge of implementing/executing the activity. More than one can be entered
28.	Contracted Agencies	<p>As with the Implementing Agency, this can be an NGO, a ministry or any other organization that was contracted for the project. More than one can be entered.</p> <p>Implementing and Contracted Agencies can per se be the same. However there are many cases of an intermediary contracted agency that implements the activity via another organization.</p>

Glossary I: Individual Projects - Data Fields Details & Definitions		
29.	Rio & Policy Markers	<p>ODAnic includes following Policy and Rio Conventions Markers as per OECD definition:</p> <p>Environment Policy Marker: Non applicable, Significant, Principal Gender Policy Marker: Non applicable, Significant, Principal Bio Diversity Marker: Non applicable, Significant, Principal Climate Change Marker: Non applicable, Significant, Principal Desertification: Non applicable, Significant, Principal</p> <p>This system of Policy and Rio Convention Markers was introduced by OECD/DAC in order to establish a method to monitor ODA according the different international agreements such as for Environment.</p>
30.	MDGs	All activities entered in ODAnic can be attributed to the achievement of an MDG and Target. Multiple allocation is possible.
31.	Focal Regions	<p>This field is supposed to enable Donors to show the geographic location of their individual activities up to Municipal level.</p> <p>In most cases however activities are of more general nature at national level.</p>
32.	Officer Responsible	Name and contact details of the person in charge of the activity at the Donor. In most cases the Project Officer.
33.	Internet Link	If available the internet link to a specific site on the activity or project.
34.	Comments	Any other information not covered by the data fields relevant to the understanding of the activity
